1. The following is an examiner's statement of reasons for allowance: Applicant's amendments and terminal disclaimer of 9/3/04 remove the out standing rejections. The IDS of 9/3/04 is made of record, and it is noted that US patents & the EP to Chu may employ printing as claimed, their deposits have significant particulate content &/or no redox reaction of the printed layer was found by the Examiner. The EP reference to Desilvestro et al uses a photoanode to cause the patterning in the applied layer, hence employs a different patterning technique

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
